LOUWIE I. JACAMILE

Automation Test Engineer | louwiejacamile09@gmail.com | 0956-056-0638

PROFESSIONAL SUMMARY

Detail-oriented Automation Test Engineer with three years of experience in both manual testing and automation scripting. Proficient in JavaScript automation using Cucumber BDD, test planning, and defect detection. Experienced in CI/CD integration and optimizing testing processes. Passionate about progressive automation, continuous improvement, and innovation, seeking an opportunity to contribute to high-impact testing solutions in new and challenging environment.

KEY SKILLS

- ✓ Cucumber BDD
- ✓ SQL Knowledge
- ✓ AI Testing Knowledge
- ✓ JavaScript Language
- ✓ Postman
- ✓ Zephyr Skills
- ✓ Selenium IDE
- ✓ Web UI automation
- ✓ API Testing
- ✓ Jira Management
- ✓ Gherkin Syntax
- ✓ Automation Scripting
- ✓ Manual Testing
- ✓ Test Case Creation
- ✓ Functional Testing
- ✓ CI/CD Pipelines

EXPERIENCES

Automation Test Engineer – Full Time, RCG Global Services | Present

- Developed and implemented more than 15 plus automation scripts using JavaScript with the Cucumber BDD framework written in Gherkin, streamlining testing processes and reducing manual effort. Improved efficiency, accelerated defect detection, and enhanced software quality through optimized test execution.
- Pioneered Disney's Online Check-in project, spearheading the creation of more than 400 plus of comprehensive test cases and successfully completing detailed object mapping for the Overview page. Played a key role in enhancing functionality, streamlining automation, and ensuring seamless user experiences through meticulous testing and validation.
- Designed and implemented new reusable automation steps combined with custom classes to enhance the automation of the Disney Cruise Line page. Improved test efficiency, maintainability, and scalability, ensuring seamless functionality and a more robust automation framework

Quality Assurance Analyst – Full Time, INFOR | August 2023 – November 2024

- Designed and deployed a suite of **19 automation scripts** for enhancement and defect reports, resulting in a considerable reduction in manual testing hard work and increased overall efficiency. This automation resulted in a significant decrease in testing time, allowing for swifter issue response and advancements.
- Pioneered 4 epic modules for the new project called Advance Warehousing. During those time, I managed to develop and executed over **300 plus detailed test scenarios** to ensure system reliability and functionality. My role involved identifying critical bugs, collaborating with cross-functional teams to resolve issues, and optimizing the testing process, leading to a **20% increase** in team productivity and accomplishment.
- I thoroughly documented and submitted over **40+ issues in Jira**, each with detailed information to help with issue tracking and resolution. This comprehensive methodology ensures that developers have the required knowledge to efficiently identify and address each issue.

Junior Quality Assurance – Part Time, Wizy.io | August 2022 – May 2023

- Performed various software testing methodologies to ensure that the developers releases are working fine and confirm the compliance of the application with system requirements.
- Created and executed test plans and test cases for software applications, ensuring the quality of each test and increasing our team's readiness for future software releases.
- Submitted a bug report with proper information to help the developers locate and fix the issues found during the software testing

Junior Quality Assurance – Intern, Wizy.io| June 2022 – August 2022

- Participated in daily Scrum meetings, gaining a deep understanding of the importance of reporting daily status to keep the team aligned, track progress, and ensure smooth project execution.
- Conducted regression testing to ensure software updates didn't impact existing functionality.
- Delivered comprehensive feedback on usability and user experience, offering developers valuable insights to enhance functionality and improve overall user satisfaction.

EDUCATION

Science Technology Engineering and Mathematics
La Consolacion University Philippines
Catmon Malolos City, Bulacan

BS Computer Engineering
Bulacan State University
Guinhawa Malolos City, Bulacan
